PROJECTS

Multi-Tenant SEO & AI-Search SaaS Private repo | Sep 2026 – Present
TypeScript, Next.js, NestJS, Prisma, MySQL, Redis, BullMQ, Stripe, Docker, GitHub Actions
- Built a monorepo with a Next.js web app, NestJS REST API, BullMQ workers and a custom crawler, sharing Zod schemas.
- Implemented tenant-scoped data, SSO, two-factor login, Stripe billing, audit logs, a public API and rank tracking.
- Delivered 240+ commits through 59 merged pull requests, with 280+ test files, 60 migrations, CI and a staging deployment.

AI Website Chat-Agent Platform (RAG) Private repo | 2026
Python, FastAPI, PostgreSQL + pgvector, Redis, Gemini API, React, TypeScript, Docker, nginx
- Agents learn from website crawls, files and Q&A and stream answers, using pgvector search for large knowledge bases.
- Built a one-script-tag chat widget (Shadow DOM, iframe, domain allow-list), team roles, versioning and 45 test files.

E-commerce Platform with Admin Panel Private repo | Oct 2026 | Deployment pending
Next.js, TypeScript, Prisma, MySQL, NextAuth, Razorpay, Cloudinary, Vitest, Playwright
- Built checkout with COD and Razorpay, server-side re-pricing, transactional stock updates and GST invoice PDFs.
- Added an admin panel with orders, coupons, review moderation and exports; adapted the stack for a bilingual art store.

BhaktiYatra: Temple Directory & Pilgrimage Booking Source on GitHub
Next.js, Express 5, MongoDB, Razorpay, Cloudinary, Vitest, Playwright, GitHub Actions
- Built seat holds with expiry and Razorpay checkout, signature checks, webhooks and reconciliation (tested via a stub provider).
- Generated PDF e-tickets with QR codes and invoices, plus email retries and admin tools for bookings, refunds and audit logs.

Hisaab: Offline Personal Finance App for Android Private repo | Oct 2026
React Native, Expo, TypeScript, SQLite, Jest, Maestro
- Built in 10 days with Claude Code: expenses, udhaar ledger, budgets, reports, backup and app lock, with no internet access.
- Led product decisions and device testing; shipped a signed APK with 446 automated tests and E2E flows on Android 8, 14 and 17.

Also: Space Launch Analytics (Python ETL, MySQL, Power BI) | IPL Dashboard (Pandas, DAX, Power BI) | LMS Student Module (Django REST, JWT)

PROFESSIONAL EXPERIENCE

Shanti Infosoft, Indore, MP | Data Analyst Intern Jan 2026 – Jun 2026
- Cleaned, processed and analyzed real-world datasets using Python (Pandas, NumPy) and MySQL.
- Built visualizations (Matplotlib) and monthly reports to present insights to business and marketing stakeholders.
